

Lost Faith in your Computer?

Effective IT can free up your time, making it easier to achieve what you really want. The wrong system or software or lack of vital knowledge can hold you back more than you think!

IT Help for Faith Groups

provides support to faith and interfaith organisations who want to overcome these barriers with straightforward, free advice on IT delivered by personal visit, phone or email.

If you are a faith-based organisation in the eastern region contact us today to arrange any of the following services:

- PC health-check audits
- Day-to-day IT support via a helpline
- Straightforward advice and strategic planning
- Training needs analysis
